

The Flying Griffins

From the new Pres.

On Sept 11, 2009 we held our annual picnic at our new field. What a fun day it was. We had a fantastic turn out. The food was great prepared by the wives and the club furnished burgers, dogs and Drinks. Thanks to Billy and Pat Moore for the hard work in providing their time in purchasing the food, supplying the equipment and the preparation of the lunch.

Thanks to Mr. Dick Ward and his wife for joining us. Thanks for the great flying site

Frank has done a great job in planning and developing our site along with co engineers Roger Clayton and Bert Watkins.

We owe everyone who has worked at the field a vote of thanks for making a safe and comfortable flying site. Larry Turner and Mike Lynch, just to mention two dedicated members.

I also would like to thank all of the club officers who participate and give their time. Scott great job on the web site.

All in all, great job club members!!! I for one am proud of what we have accomplished together, and I hope that I haven't left anyone out.

Last week we gained three members: The Flying Griffins welcomes:

Gene Lavine - Rejoined
Steve McLacklean - Rejoined
Ken Looper - New member

Regards,
Ted Brogden
