

## Work Day a Success

The flying Griffins agreed at the January 10th monthly meeting to hold a work day on January 17th. Stan encouraged everyone to come out with trailers, tools, and a good attitude and help in the removal of the buildings and equipment at the field. With layers of cloths, hats, gloves and tools in hand everyone, despite the 19 degree temperature, started working away. In approximately 5 to 6 hours the field was vacant. Many thanks to all the members that came out in the bitter cold and made this work day such a success. A special thanks to Tony for showing up with his bobcat. Without it, I don't think we would have been able to move the bathroom.

*Every Job site requires a supervisor.  
Just kidding John. Thanks for helping!*

## Notice

- **No flying at the old site after January 31st.**
